

THE BABY KILLING PARTY IS OVER  
by charlie poet

For thou hast possessed my reins: thou hast covered me in my mother's womb. [Psalms 139:13](#)

THE BABY KILLING PARTY IS OVER! REPEAT! THE BABY KILLING PARTY IS OVER!  
REPEAT!

New York State has become the baby killing capital of the world after Governor Mario Cuomo signed legislation allowing people to kill full grown babies in the mother's womb; and even out of womb, on the medical [killing floor](#).

This is murder. You can't kill a new born baby. It's Alive! Do you understand? We are not livestock!

After signing the legislation New York's lawmakers gave a standing [ovation](#) in Albany, and lit One World Trade Center [pink](#) to celebrate. That's right, they celebrated. Doesn't pink represent cancer? What exactly is [pink champagne on ice](#), Don Henley? Rumor is that it's code for [adrenochrome](#). These people are sick!

Have you ever watched an abortion live? Do you know what happens during the [murder](#)? They rip the baby, limb by limb, out of the vagina. Then they crush the skull and drag it out. Only psychopaths think this is ok. If you disagree you are the [tares](#).

Thank God almighty a Christian group is doing something about it, and it's spectacular!

On MAY 4th, 2019, in Times Square, a very important and beautiful event will take place. It's the first of its kind and it's host, [Focus On The Family](#) calls it [Alive From New York](#).

The event will have bands and show the miracle of life, as a doctor performs a live ultrasound on the jumbotrons in the heart of the Big Apple. For the whole world to see. Hooray! Time to celebrate life again, America. Wow! Thank you Jesus!

It's also time to bring some shame to the baby killers. They are really out of control. 60 million American babies have been killed since Roe vs. Wade. Enough already. Finally a sight for an entire nation's sore eyes. I pray everyone attends. Either way,

**THE BABY KILLING PARTY IS OVER! REPEAT! THE BABY KILLING PARTY IS OVER!  
REPEAT!**
