

All things are lawful unto me, but all things are not expedient: all things are lawful for me, but I will not be brought under the power of any. --Corinthians 6:12 KJV_____

TECHNOLOGY BILL OF RIGHTS by Charlie Poet 2/12/19

There comes a time in the name of God, and for the safety of our children, and ourselves, that we must face reality, and all the horrifying challenges that accompany it, despite what's on tv. That time is now.

The technology armageddon, or *TECHNOGEDDON*, is far more dangerous than most of us know; in fact, it is insanity. Insanity in its most raging, evil, merciless, permanent form; and I do mean permanent. Let me ask you, reader, do you want a metal microchip planted in your palm, or forehead? A chip that tracks every movement you make, and much more? If you don't, the time is now to stop it, if possible. Read more about the ridiculous "chip" here:

<https://www.sheila.media/?s=microchip>

Have you heard of *Clustered Regularly Interspaced Short Palindromic Repeats*, or **CRISPR**, for short? This DNA "technology" is conjured from Frankenstein "beehive minds," the mad scientists are "editing genes" to say the least <https://en.wikipedia.org/wiki/CRISPR>. Fortunately for us, **Sheila.Media** has some very informative articles on **CRISPR** please investigate further and tell others <https://www.sheila.media/?s=crispr> talk to church members, your family, your pastor, this stuff is extremely dangerous, pass it on.

What about 5G? Please say you have heard of that? If not this is an emergency, take a timeout and read about it here: <https://www.sheila.media/?s=5G> and do it quick, satanic sky

pirates are spraying chemtrails <https://www.sheila.media/?s=chemtrails+> on our heads daily and combined with 5G will do a lot of us in. They are cooking our brains, seriously.

What this country (and the world) needs is a **Technology Bill of Rights**. A bill of rights that protects us from personal mind-control intrusion like **Voice To Skull (V2K)**, and other crazy **TECHNOGEDDON** evils.

Here are the first sentences from an article written by former presidential candidate Ron Paul: *"The technology called Voice to Skull is a projected sound/voice transmission into one's mind through the auditory nerves and bones instead of via the hearing organs of the ears. It cannot be blocked out; at least no such defense is known in the civilian world."*

<http://www.ronpaulforums.com/showthread.php?137258-Voice-to-Skull-Technology> Are you

prepared for technology that makes you hear voices? Isn't life challenging enough already? In the name of God we need a **Technology Bill of Rights** and we need it **NOW**.
